

Family investing in building lives for eternity

February 2014

Hello Dear Friends,

**“Train up a child in the way he should go, and when he is old he will not depart from it” (Proverbs 22:6).**

India’s culture is steeped in darkness, and the village of Chintamani in the state of Karnataka where our KidZ Sanctuary children’s home is located, is no exception.

Lot of places in India is well known for child trafficking, hostility to the Gospel and slavery. People say, “It’s the way of life in India. It will never change.” But we know otherwise. We have seen God bring change to and through the children in our homes, which in turn has impacted the local community. In time this could change the face of India through Christ.

Thanks to your sacrificial giving and earnest prayers, KidZ Sanctuary Children’s Home in Chintamani on the out skirts of Bangalore has taken in 23 boys and 22 girls, rescuing them from dire situations. Each of them come from an extremely poor background with no family members or family members unable to care for them. None of them had previously been exposed to the Gospel. We are excited to see what God will do in their lives as they learn about Him. Please pray they will grow up and serve Him—as have many of our older children have realized the Grace of God in their lives and see how God has rescued them for a greater purpose in life.

**This month we thought we would introduce 4 of our children.**

The first is Jeevan who is 10 years old as of today. He is a child of an inter caste relationship. His mother was an upper caste while his dad is from the lower caste. His mom was forced to marry her own uncle at a very young age. She was broken hearted and never had anything to do with her uncle who is now her husband. She ran out of the house after two years of being married and went to live in a city. There she met a young man whom she was attracted to and started an adulterous relationship with him while still married to her maternal uncle. During that adulterous relationship she used all kinds of contraceptives, yet the contraceptives did not work and then became pregnant with Jeevan. She tried to abort Jeevan on two occasions and the doctors said it was too late, so she went ahead and had the baby. After Jeevan was born, his maternal grandmother wanted nothing to do with the baby. Jeevan’s mother was forced to leave her mother’s home

because of shame. She took two year old Jeevan and dumped him in a Fundamental Hindu orphanage run by a famous Hindu priest and she would visit him occasionally. Jeevan was going through nightmares as a child and had no idea what had happened at the Hindu orphanage. She then took him from that place after hearing about us and our heart to invest in Children home. She approached my older sister and that's how Jeevan came to be with us. He came to us with those nightmares and lot of issues, and

would steal food, cookies, would lose his things and what not. After seeing Jesus' love being put into action and being with us since the age of 4 years he is now growing in the knowledge of Jesus Christ. He testifies Jesus working in his life and we can see change in him. All this is possible because of your willingness to sacrificially share and invest in his life. Only eternity will reveal what your investment has produced.

**The next 3 are siblings.**

Soni, Nagaraj and Geetha are siblings. Their father died a few years ago. Their mother married for the second time and left these children in the care of their grandmother who took care of them by doing all odd jobs. It came to the point when the she was not able to take two or three jobs so she asked for Sonis help. Soni quit school while in the 5<sup>th</sup> grade and worked for 3 years to help her grandmother to feed her siblings. The grandmother met a local pastor and started to go his church and from there she came to know about the KidZ Sanctuary. She requested the pastor to see if KidZSanctuary could house, cloth and feed and school them. Since we

lacked the funds we did not take them in immediately but prayed with them and said we can wait and see if God can open some avenue to help them. After a few months by faith we took these kids in and now they have a place to call their home. Thank you for your investment in these 3 sibling's lives. Soni is in 7<sup>th</sup> grade she is 2 years behind as she dropped out of school. Nagaraj is in 5<sup>th</sup> grade and Geetha is in 3<sup>rd</sup> grade. Touching lives and changing them for eternity has been possible as a result of your faithful prayers and sacrificial giving. Please continue to keep up the good work

**Praise Report from the Mission field:  
KidZ Sanctuary + Church Planting and  
Development = New Level of Effectiveness in  
Missions:**

Daniel and Jacob have been discipling a young man, Pavan, at Born Foundation Bible School. Daniel has been working alongside of his uncle, Amos Paul, who has been a long time friend of Daniel for 15 years. This young man's uncle Amos Paul went back to his home town and witnessed to his relative Ram Babu. He used to be a village drunk but after accepting Jesus Christ as his personal savior the village drunk, Ram Babu, went to share his story and many in his village did not believe him. So he went to another village and shared his story and many came to the saving knowledge of Jesus. As a result a church was planted and it keeps growing. Amos Paul and Ram Babu went to another village to share their story and this resulted in another church plant. Just recently they have planted still another church in a third village. These two young men would work on the side as electricians during the week and evangelize during the weekend. KidZSanctuary started giving financial help with the offerings collected at the KidZSanctuary campus Church called Logos Bible Church and also gave them jobs at the KidZSanctuary building that was recently completed. Through this recent construction job Dan, Jacob, Amos and Ram Babu were able to reach all the construction workers with the gospel and 9 out of 12 came to know the Lord. This also resulted in them cutting down their addiction of drinking and smoking. Yes 3 new growing church plants meeting under thatched roofs in 3 different villages. Two of the churches were destroyed and brought to the ground by the fundamental Hindus.

**Church built with Coconut leaves and Bamboos**

These new believers came together and put back the thatched Church. The new believers have come together and donated a piece of Land to build a permanent church building with brick and concrete they are in need of financial support to buy materials like bricks, stones, sand, cement and steel. They will donate the labor to put up the church building.

Kindly be in prayer about this need as well. Dan will be going back to minister alongside these churches and also involve in training the men during the summer when he returns to India.

We request you to think of some of the ways for you to get engaged, please pray that God will show you what it is He wants to do through you. Then just obey Him!

**Need \$2,500.00** for chairs for the children in the multipurpose building. Right now the children are sitting on a mat placed on the cold concrete floor as it is getting difficult to carry chairs from dining area in the ground floor to the fourth floor through 50 stairs.

**Need \$2000** for ongoing monthly operational expense.

KidZ Sanctuary is a donation based ministry. As such, your faithful giving is what fuels our God given vision to transform children and communities by giving hope, inspiring dreams and changing lives for eternity through the Love of Jesus.

Some of the coolest ways to help KidZ Sanctuary is to get engaged right where you are. Sure, going to the mission field for a short-term trip is always a tremendous experience and we hope you get to do that one day if you haven't already. But there's so much you can do right from wherever you live.

There are so many ways that you can engage the need. Everything from saving your coins, collecting your pop cans to joining the KidZ Sanctuary team, and everything in between. What we want is for you to get engaged. Do what you can and let God do what He can through you.

With much prayers, love and blessings,  
Dan Bhandari  
President, BORN Foundation
